Genetron® 407C

00000009894

Version 2.7 Revision Date 06/04/2014 Print Date 06/22/2015 SECTION 1. PRODUCT AND COMPANY IDENTIFICATION Product name Genetron® 407C : MSDS Number 00000009894 : Product Use Description Refrigerant : Manufacturer or supplier's : Honeywell International Inc. details 101 Columbia Road Morristown, NJ 07962-1057 800-522-8001 For more information call : +1-973-455-6300 (Monday-Friday, 9:00am-5:00pm) Medical: 1-800-498-5701 or +1-303-389-1414 In case of emergency call : Transportation (CHEMTREC): 1-800-424-9300 or +1-703-• 527-3887 : : (24 hours/day, 7 days/week) SECTION 2. HAZARDS IDENTIFICATION **Emergency Overview** Form : Liquefied gas : colourless Color Odor : slight Classification of the substance or mixture Classification of the : Gases under pressure, Liquefied gas Simple Asphyxiant substance or mixture GHS Label elements, including precautionary statements Page 1 / 16

SAFETY DATA SHEET Honeywell Genetron® 407C 00000009894 Version 2.7 Revision Date 06/04/2014 Print Date 06/22/2015 Symbol(s) Signal word : Warning Hazard statements : Contains gas under pressure; may explode if heated. May displace oxygen and cause rapid suffocation. Precautionary statements : Storage: Protect from sunlight. Store in a well-ventilated place. Hazards not otherwise : May cause cardiac arrhythmia. classified May cause frostbite. May cause eye and skin irritation. Carcinogenicity No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP, IARC, or OSHA. SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS Chemical nature : Mixture Chemical Name CAS-No. Concentration 1,1,1,2-Tetrafluoroethane 811-97-2 52.00 % Pentafluoroethane 354-33-6 25.00 % Difluoromethane 75-10-5 23.00 % **SECTION 4. FIRST AID MEASURES** Page 2 / 16

ion 2.7		Revision Date 06/04/2014	Print Date 06/22/2
Inhalation	:	Move to fresh air. If breathing is irregular administer artificial respiration. Use oxy provided a qualified operator is present not give drugs from adrenaline-ephedrin	/gen as required, . Call a physician. Do
Skin contact	:	After contact with skin, wash immediate If there is evidence of frostbite, bathe (o lukewarm (not hot) water. If water is no clean, soft cloth or similar covering. If s physician.	do not rub) with ot available, cover with a
Eye contact	:	Rinse immediately with plenty of water, for at least 15 minutes. In case of frost lukewarm, not hot. If symptoms persist	bite water should be
Ingestion	:	Unlikely route of exposure. As this prod inhalation section. Do not induce vomiti advice. Call a physician immediately.	
Notes to physician			
Treatment	:	Because of the possible disturbances of catecholamine drugs, such as epinephr with special caution and only in situation support. Treatment of overexposure sh control of symptoms and the clinical con- bitten areas as needed.	ine, should be used ns of emergency life nould be directed at the
TION 5. FIREFIGHTING ME	ASL	RES	
Suitable extinguishing media	l	The product is not flammable. ASHRAE 34 Use water spray, alcohol-resistant foa carbon dioxide. Use extinguishing measures that are a circumstances and the surrounding er	appropriate to local
Specific hazards during firefighting		Contents under pressure. This product is not flammable at ambie atmospheric pressure. However, this material can ignite wher pressure and exposed to strong ignitic	n mixed with air under

SAFETY DATA SHEET Honeywell Genetron® 407C 00000009894 Version 2.7 Revision Date 06/04/2014 Print Date 06/22/2015 Container may rupture on heating. Cool closed containers exposed to fire with water spray. Do not allow run-off from fire fighting to enter drains or water courses. Vapours are heavier than air and can cause suffocation by reducing oxygen available for breathing. In case of fire hazardous decomposition products may be produced such as: Hydrogen fluoride Carbon monoxide Carbon dioxide (CO2) Carbonyl halides : In the event of fire and/or explosion do not breathe fumes. Special protective equipment for firefighters Wear self-contained breathing apparatus and protective suit. No unprotected exposed skin areas. SECTION 6. ACCIDENTAL RELEASE MEASURES Personal precautions Immediately evacuate personnel to safe areas. : Keep people away from and upwind of spill/leak. Wear personal protective equipment. Unprotected persons must be kept away. Remove all sources of ignition. Avoid skin contact with leaking liquid (danger of frostbite). Ventilate the area. After release, disperses into the air. Vapours are heavier than air and can cause suffocation by reducing oxygen available for breathing. Avoid accumulation of vapours in low areas. Unprotected personnel should not return until air has been tested and determined safe. Ensure that the oxygen content is >= 19.5%. Environmental precautions Prevent further leakage or spillage if safe to do so. 1 The product evapourates readily. Methods for cleaning up : Ventilate the area. Page 4 / 16

Handling	
Handling	 Handle with care. Avoid inhalation of vapour or mist. Do not get on skin or clothing. Wear personal protective equipment. Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50 °C. Follow all standard safety precautions for handling and use of compressed gas cylinders. Use authorized cylinders only. Protect cylinders from physical damage. Do not puncture or drop cylinders, expose them to open flame or excessive heat. Do not pierce or burn, even after use. Do not spray on a naked flame or any incandescent material. Do not remove screw cap until immediately ready for use. Always replace cap after use.
Advice on protection against fire and explosion	: The product is not flammable. Can form a combustible mixture with air at pressures above atmospheric pressure.
Storage	
Requirements for storage areas and containers	 Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50 °C. Do not pierce or burn, even after use. Keep containers tightly closed in a dry, cool and well-ventilated place. Storage rooms must be properly ventilated. Ensure adequate ventilation, especially in confined areas. Protect cylinders from physical damage.
TION 8. EXPOSURE CONTR	ROLS/PERSONAL PROTECTION
Protective measures	: Do not breathe vapour. Do not get in eyes, on skin, or on clothing. Ensure that eyewash stations and safety showers are close to
