

## THE 3 R'S OF RECLAMATION:

### Recovered Refrigerant

Any refrigerant that has been recovered from equipment and has not been further processed or packaged. **Reuse is restricted to the specific system, or any other system in the network owned by that same equipment owner.**

### Recycled Refrigerant

Any refrigerant that has been recovered from equipment and cleaned using approved recycling equipment, without meeting all requirements for reclamation. **Reuse is restricted to the specific system, or any other system in the network owned by that same equipment owner.**

### Reclaimed Refrigerant

Any refrigerant that has been recovered, processed, tested, and certified by an EPA certified reclaimer to meet or exceed the AHRI 700 standards.

**Reuse allowed by any user.**
