

EMERALD

REFRIGERANTS™

RECLAIMED IN THE USA

- Made in the USA
- Produced in EPA-certified facilities
- Meets AHRI 700 purity standards
- Reduces your carbon footprint and GHG emissions

**1 lb. Reclaimed
is 1 lb. Not Made**

WHAT THE INDUSTRY IS SAYING ABOUT EMERALD REFRIGERANTS!

“EMERALD is inherently useful because it facilitates the reclamation of refrigerants that would otherwise be released.”

“As refrigerant becomes an asset, it incentivizes business to improve environmental responsibility by building revenue off of refrigerant reclamation.”

“Reclamation is an exciting area, with Emerald Refrigerants at the forefront.”

“Adopting a refrigerant reclamation strategy is a growing field with enormous potential.”

“Reclamation is very useful as it provides unlimited reuse of refrigerant, which can reduce/eliminate the need for new refrigerants.”

“This will be an obvious environmental benefit with the reducing of GHG emissions associated with refrigerant production and usage.”
