HUDSON SF6 SERVICES

SF6 is widely used in industrial processes, particularly power generation and electric utilities. Hudson's expertise in SF6 is far reaching.

Hudson Technologies comprehensive SF6 services include:

- **SF6 sales**
SF6 is available to support both routine and emergency needs
- **SF6 buy back**
Hudson will buy back your recovered SF6 (with certain purity requirements) at competitive market rates
- **Clean Return program for your contaminated gas**
Manage your existing SF6 inventory with your contaminated product brought back to ASTM standards and returned to you for future use.
- **Destruction of contaminated gas**
Hudson can dispose of your contaminated SF6
- **SF6 Field Recovery**
Hudson can recover SF6 onsite from your equipment or holding vessels.
